

The Laura Foundation is pleased to present our inaugural Professional Development Workshop!

Self-regulation Development: Support Strategies to Decrease Disruptive Behavior

Presenter: Terese (Tess) Dana, M.S., BCBA

Tess Dana, M.S., BCBA received her master's degree in Educational Psychology. She currently consults in schools in three states, helping students improve their social, emotional and behavioral skills. Ms. Dana is the creator of the *Fitting In and Having Fun Video Modeling Series* and the *File Factor Emotional Empowerment System*. She is an education consultant for Didi Lightful, an animated children's series. Ms. Dana presents workshops both nationally and internationally. Her work has appeared on National TV, in The New York Times and in the Autism Sourcebook. Ms. Dana served as the first board President for the Laura Foundation for Autism and Epilepsy where she helped to create the Laura Adaptive Recreation Center in Madison, NH.

Learning Objectives for Participants:

1. Learn how to implement a visually supported self-regulation system
2. Identify strategies to prevent challenging behaviors
3. Identify key components of successful behavior intervention plans
